Need additional help? Call the office: (608) 365-3332

Do not add prefixes or suffixes to the name (N, P, EXP, GE, ET, TWIN, etc) - this will be done automatically after updating the form.

When finished, click the "update" button - this fills in the rest of the form. It should say "success" at the top of the page. If not, it will tell you what needs to be edited. If all is correct, click the "register" button. It should again say "success" at the top of the page, followed by the animal's registration number. When finished, click on the sidebar and click "post order."
